

START/PROGRAMS//ACCESSORIES//SYSTEM TOOLS

The screenshot shows the Windows 98 Start menu with the following navigation path highlighted:

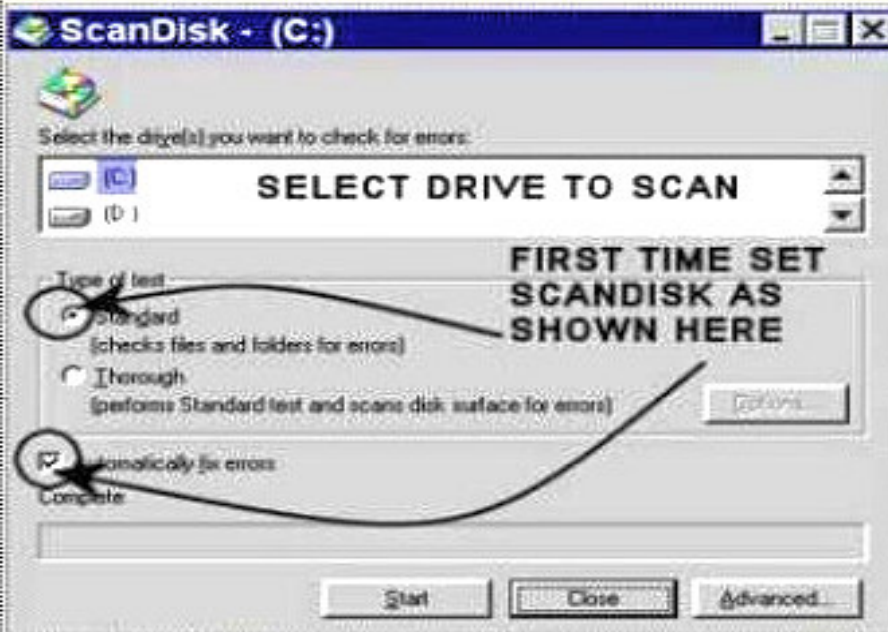

- Start
- Programs
- Accessories
- System Tools
- Disk Defragmenter

Other items visible in the System Tools submenu include: Backup, Character Map, Clipboard Viewer, Compression Agent, Disk Cleanup, Drive Converter (FAT32), DriveSpace, Maintenance Wizard, Resource Meter, ScanDisk, Scheduled Tasks, System Information, System Monitor, and Welcome To Windows.

Annotations and instructions:

- An arrow points from the **Start** button to the text: **AFTER SCAN DISK CLICK DEFRAG FOLLOW DIRECTIONS BELOW SCANDISK**
- An arrow points from the **Disk Defragmenter** icon to the text: **CLICK SCANDISK FIRST BRINGS UP**
